Subject: MLPA Enforcement

It is my understanding that at the present time we have the following F&G Wardens on the coast...We have an enforcement problem already!!!

- 1. There is a resident warden in Elk, that patrols from the Navarro River South to the Gualala River and East to Boonville.**
- 2. There is a resident warden on the South Coast that patrols the North half of Marin County North to the Russian River.**
- 3. There is NO RESIDENT WARDEN in the area from the Russian River North to the Gualala River.**
- 4. There is NO RESIDENT WARDEN on the Hwy 101 corridor inland from this area.**
- 5. We were told in the Gualala Meeting by the F&G Officer who is attending the meetings that another 7-9 positions would be asked for to enforce the MLPA plans. His comments was that by asking for 7-9, they would hopefully get 3.**
- 6. If there are 40 in the F&G Academy now, how many will make it? How many will transfer to another agency or a job with a higher salary? How many will get a coastal position? If they can find affordable housing in this area.**

Hopefully this information is all correct, check it out and please correct me if I'm wrong.
